ABOUT ME

I'm a Full Stack Developer specializing in building (and occasionally designing) exceptional digital experiences. Currently, I'm focused on building accessible, human-centered products at One80 Studios.

With a track record since 2009, I have been through various advertising agencies, startups, and e-commerce, leading the development of comprehensive solutions.

WHERE I'VE WORKED

One80 Studios

Oct 2015 – Present

Web Developer / Entrepreneur

- Write modern, performant, maintainable code for a diverse array of client and internal projects.
- Work with a variety of languages and frameworks such as React, Node.js, PHP, Laravel, and Flutter.
- Lead the design and development of comprehensive solutions, including mobile and web applications.

Content Offshore

Nov 2012 – Sep 2015

Web Developer

- Developed and maintained e-commerce sites and payment gateway integrations.
- Managed multiple CMS platforms and delivered high-quality landing pages for clients.
- Collaborated with designers to translate visual concepts into functional web applications.

Keyspot Networks, Inc.

Apr 2012 – Nov 2012

Web Designer / Developer

- Executed web design and development projects for various digital service and network initiatives.
- Ensured cross-browser compatibility and optimized web graphics for better performance.

Mod Op

Jul 2011 – Mar 2012

Web Developer

- Collaborated on creative digital advertising campaigns, translating design mockups into interactive web assets.
- Developed responsive front-end components using modern web standards.
